

KILLARY - OUTDOOR ADVENTURE CAMP

The perfect combination of recreation, fun and language learning!

This programme is designed for students aged 12-17 years, to benefit from the best possible combination of language learning and recreation during the school holidays.

Under the guidance of our native counsellors, the campers use their new language skills throughout the day, both during instruction as well as in the afternoon and evening activities.

EXCITING AND MOTIVATING INSTRUCTION

The participants at our camps don't only learn during the morning lessons made up of lively components such as interviews and role plays, they are also encouraged to put the language they have learnt into practice during their leisure time.

Participants have the opportunity to learn a foreign language, take part in exciting activities and make new friends, whilst also being on holiday. At the same time, they're laying the foundations for improving their performance in school the following year, almost without realizing it.

LEARNING BY SPEAKING

As well as having lots of fun, children return home with improved knowledge of the foreign language and enhanced motivation. We know from experience that participants achieve significant progress in their learning and that their self-confidence improves, so the benefits are two-fold.

ACCOMMODATION

Sleepzone Hostel Killary, situated in the heart of Connemara on Ireland's wild and rugged west coast.
